

2 CER Says Goodbye to Ms Jane Green

Anyone in the engineer community who has served at 2 CER in the last twenty years will know Ms Jane Green. Jane became a part of the 2 CER family in July of 1995 as the secretary for then CO, Major S. Allen. She would continue to work with 2 CER through 9 more COs, spending as much time at the unit, if not more, than most of the Sr NCOs who consider 2 CER their home. She has been with the unit through some of its most significant transitions such as its move from Z-101 to its new home at Neder Rijn Engineer Park. She has also seen the unit transform from a minor unit with a handful of field troops to a major unit with five full squadrons. She has known many of the unit's soldiers and officers since they began their careers as young sappers or Lts and watched them as they progressed to become Sergeant Majors and COs. While all of us at 2 CER are saddened to see her go, we appreciate all that she has done for the unit through the years and wish her the best in her new position as the CO's secretary at 3 RCR Petawawa.

Jane, good luck and CHIMO!
